

## Water Board Minutes 10/30/2019

Attending: Dick Waters, Don Nelson, Bill Meunier

Meeting called to order at 6PM

Discussed cathodic devices in water tank. Three out of eleven of them do not work. Corpro suggested we leave it be and not to touch them. They are doing their job. All tests were positive. Extra work done by Corpro employee was appreciated.

Have not completed installation of shut-off valve in front of old gas station. Hole will be filled in for winter. Will work on it next spring. Hole was filled by Denny Graves the next day.

Water hydrants are all in working order. Mike McIntyre takes care of school. We take care of the bus garage.

Abandoned line at once was a corner house on Route 248 and Park has been chopped and shut off.

Meeting ended at 7PM
